Allowable Subject Matter

2. Claims 1, 3-6 and 8-10 are allowed.

3. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for the indication of allowable subject matter: The prior arts of record Weiss (US 20020140867), Gaddam et al (US 6744822) and Karaoguz (US 7315579) do not teach or suggest a trellis encoding means for generating initialization symbols of a predetermined length in a predetermined data field period M and synchronizing the TS outputted to the receiving stations~ and M is a natural number, wherein the trellis encoding means includes: a first switching unit for initializing output values of a trellis coded modulation (TCM) encoder and a memory of the TCM encoder performing switching to values stored in the memory of the TCM encoder instead of input signals to the TCM encoder every M period, wherein the TCM encoder includes a first feedback loop to initialize the memory of the TCM encoder after receiving the values stored in the memory of the TCM encoder from the first switching unit; a second switching unit for initializing output values of a precoder and a memory of the precoder by performing switching to values stored in the memory of the precoder instead of input

signals to the precoder every M period, wherein the precoder includes a second feedback loop to initialize the memory of the precoder after receiving the values stored in the memory of the precoder from the second switching unit; wherein when the memory, of the precoder is initialized by the second feedback loop, the trellis encoding means generates two initialization symbols in the predetermined data field period M.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
